## IOBOSCOVIVO

In **2013** was born the project loBoscoVivo from the founder's passion for nature and healthy nutrition.

In **2018** the passion became true and loBoscoVivo became finally an **organic food company** aiming to create eco-sustainable smart functional food, that helps people to adopt an healthy lifestyle respectful of the environment. Collaborating with universities and research laboratories, the company has started investing in the use of medicinal mushrooms, especially on the Shiitake mushroom (*Lentinula edodes*) known for its innumerable properties.

And here is the intuition to create the first and unique line of smart functional food products based on **superfood medicinal mushrooms**.

## Our certificates

### ISO 14001: 2015

the principal standard of management systems specifying the requirements of implementation and maintenance of a global environmental system. Helps to control environmental aspects, reduce the impact and guarantee legal compliance.

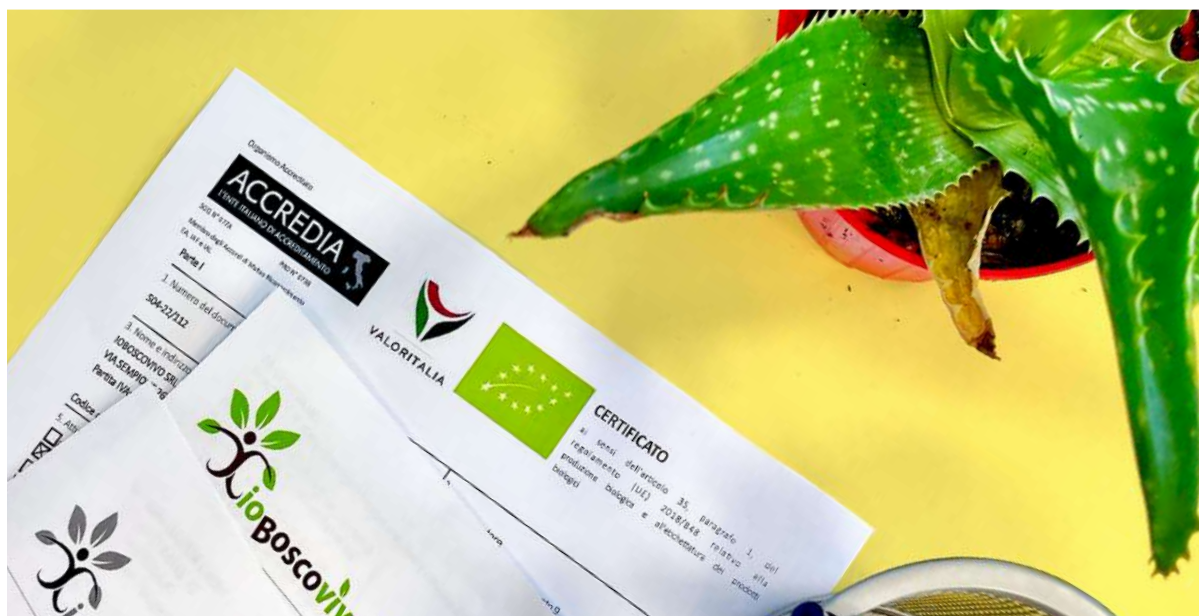

### ISO22000:2018

international voluntary standard for the certification of management systems for food security (SGSA). The ISO22000 certificate has been designed to guarantee food security during the food processing process worldwide, allowing the company to show its capacity to control the risks of food security and ensuring that the food is safe for human consumption.

### BIO

a global management system for companies based on the interaction between the best environmental practice, high biodiversity, safeguard for natural resources, application of strict criteria regarding animal well being and a production founded on the use of natural substances and procedures, defined e controlled in Europe and national wide.

## SMART FUNCTIONAL FOODS

The products are based on raw materials of high nutritional value, vegetable and organic, thus creating functional foods that help to solve small illnesses or prevent important diseases, thanks to their beneficial effects on the body.

The company's goal is to create "Smart Functional Food", meaning intelligent, organic and functional foods, capable of contribute to the maintenance of a perfect state of health thanks to their health properties, in particular, support for the immune system.

### Scientific Research

The industry works closely with a research lab equipped with the most advanced instruments in the analytic and biotech fields. All of our products undergo periodic controls, to test and assure the quality even after months from the production.

Our company also works with universities in order to widen the knowledge on medicinal mushrooms, and all of their possible applications in human health.

Our business goal is to create Smart foods, organic and functional, able to contribute in the mantainance of a perfect health condition, while providing a varied and tasteful diet.

## OUR SHIITAKE MUSHROOM

For the creation of our products is not used any Shiitake mushroom, but the loBoscoVivo Shiitake mushroom.

### And what about the differences?

The loBoscoVivo Shiitake mushroom, one of the most common medicinal mushrooms, comes from Europe. Uniqueness of loBoscoVivo Shiitake Mushrooms, other than its unmistakable umami taste, is the high content of vitamin D, in fact, it contains **300 times more vitamin D than other mushrooms**, having 116µg for 100g of product and it is also rich in Potassium, Phosphorus and Vitamin B5. To ensure that these properties are guaranteed, we have studied an exclusive cultivation method integrated with the growth on oak wood substrate that we have laid out in a rigid supply specification that we have communicated to all our suppliers.

**We have written the Nutrient References Value of vitamin D that every single serving contains! Look for this symbol**

**NRV**  
**233%**

## Why the Shiitake?

### Hepatoprotective

Shiitake helps to clean and detox the liver.

### Immune System

thanks to a high concentration of  $\beta$ -glucans such as *Lentinano*, Shiitake acts as an immunomodulatory.

### Prebiotic

It is involved on the correct functioning of the gut.

### Antioxhidant

Fights free radicals and prevents the aging of cells.

### High Quality

We only use high quality Shiitake, grown on an oak wood substrate, in controlled conditions, avoiding any risk of toxicity.

## Our formats

Granulated shiitake 8g  
page 17

Sliced shiitake 8g  
page 18

Sliced shiitake 20g  
page 19

## OUR LINES

Our products are divided in these lines in order to satisfy different lifestyles:

### Classic Line

A product line focused on simplicity, with a vast variety of products, from breakfast, to snacks, till dinner, to satisfy every need.

### BioFit Line

Rich in vegetal protein, this product line is meant for all those people that love sport and fitness, with a wide range of products for every moment of the day.

### Gourmet Line

For everyone that's looking for refined taste, focusing on local high quality raw materials.

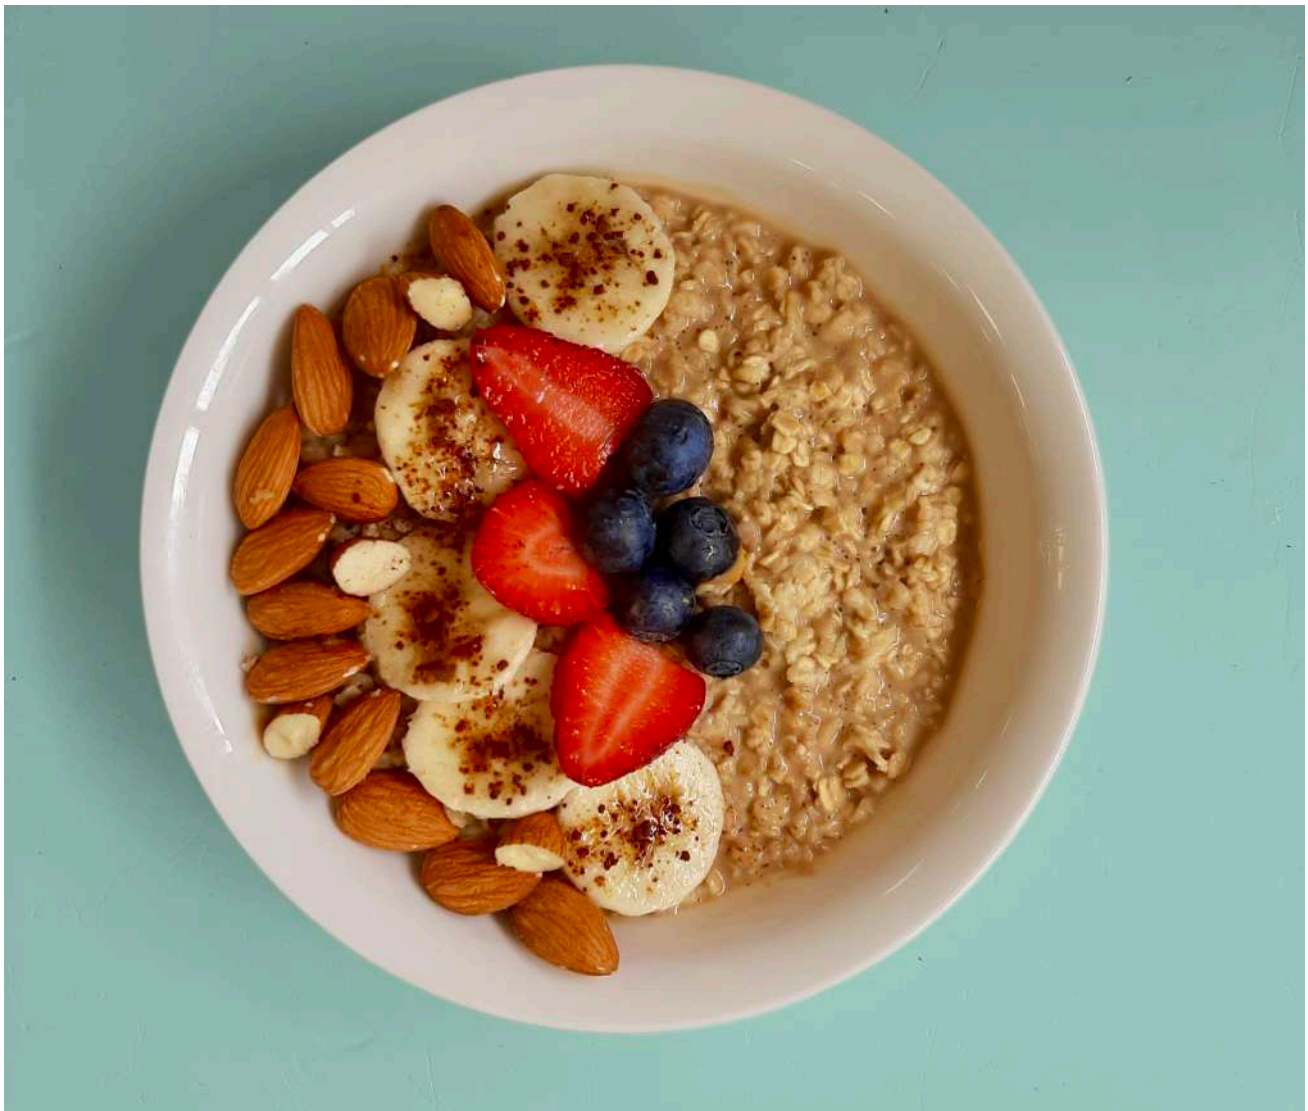

## CLASSIC LINE

#versatile

To satisfy all tastes who are looking for healthy and smart products, formulated with a reduced list of selected and quality ingredients.

## BIOFIT LINE

#protein

Our Shiitake contains 18g of vegetal protein every 100g and therefore has given inspiration to create our line for athletes rich in 100% vegetal protein and Vitamin D; maintaining strong bones and correct muscle functionality, in fact Vitamin D helps to enhance the muscle mass.

## GOURMET LINE

### #refined

The "ready to use" becomes exclusive, becomes...gourmet. Perfect for who desires more refined and unique products, with this line we promote the value of italian territory using innovative superfood as black garlic and the piedmont hazelnut PGI.

Or we practice circular economy using waste products of the food industry that have an immense value for our health.

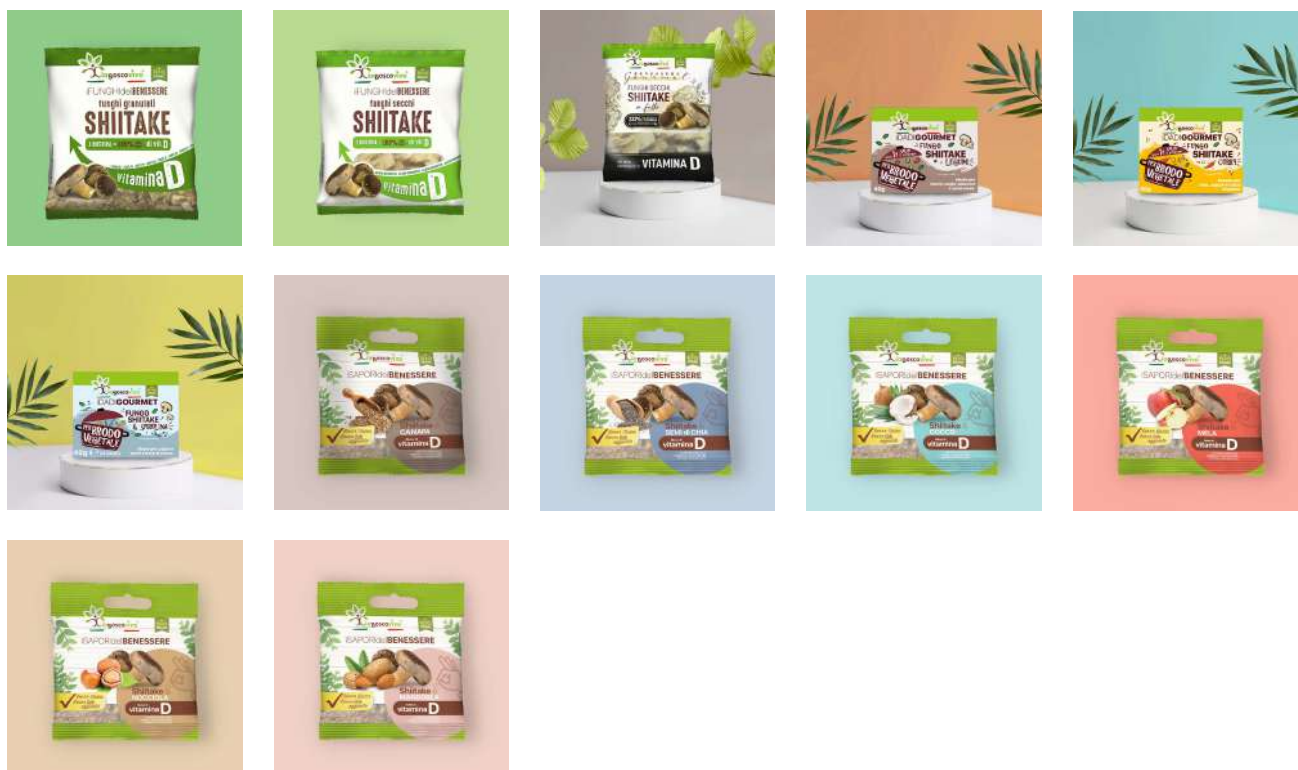

# PRODUCT CATEGORIES INDEX

a short preview

A short preview of all loBoscoVivo products grouped in categories, to cover every need at all times of the day, from breakfast to dinner.

## Shiitake & Seasonings

One of the characteristics of shiitake mushroom is to have a defined taste "umami" or flavour enhancer. This quality allows it to enhance the flavour of the ingredient to which it is combined.

Available in its simplicity, to slices or granules, or combined with other ingredients such as spices, seeds, nuts or dehydrated to get valuable help in the kitchen.

Classic line

Cod: SPG008G | WEIGHT: 8g

A granulated, ready-to-use version of our sliced Shiitake mushroom.

How to use

Does not require soaking. Use 3 minutes before end of cooking in any recipe.

Ingredients

Shiitake mushroom (Lentinula edodes) EU origin.

## **Sweet Ready To Use**

In life we have to dare, to experiment in order to surprise. This line of preparations is designed to combine practicality, wellness and grit to your breakfasts or your relaxation breaks! Are you ready to be surprised?

## **All our preparations are vegan!**

In the preparation you can replace milk or eggs with vegan alternatives! For example, instead of an egg use 3 tablespoons of aquafaba or replace milk by a plant milk (we do not recommend rice milk, because it is too rich in simple sugars).

Classic line

Cod: 400 | WEIGHT: 40g

To start your day with the right amount of energy, a delicious porridge, with the fresh taste of mint and coconut.

How to use

Pour the contents of a pack into a pot with 150ml of cow's milk or plant milk, and cook over low heat for 5-10min or in the microwave for 1-2 minutes at maximum power (800w).

Ingredients

Gluten-free oat flakes, coconut flour, shiitake mushroom (*Lentinula edodes*) EU origin, dried mint.
