About Us

Beanny Chips are a unique and healthy type of snacks, born from the vision and beliefs of UOP's (Uprising Organic Project) members.

We decided to give shape to our vision few years ago, when, while looking at traditional snack market, we saw that eating healthy, nutrient, and tasty snacks was extremely difficult.

We soon understood that the only way to overcome the existing snacks downsides was reinventing their production technology.

BEANNY CHIPS

BEANNY CHIPS

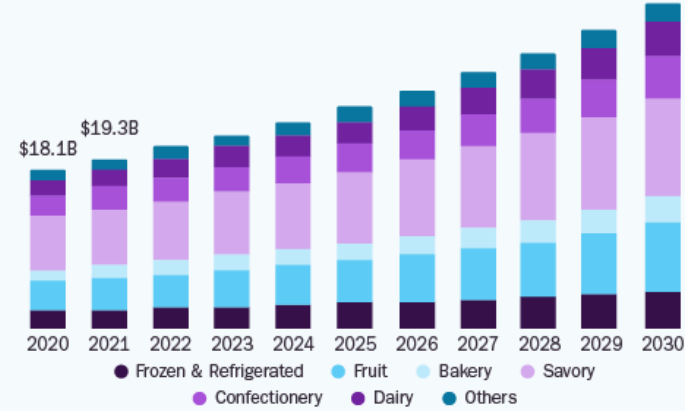

Our goal was to make chips that could be considered better than the others in every single aspect. That's why we developed a new technology called "air popped system".

We use high temperatures and pressure to "Pop" starch contained inside vegetables (like popcorns) creating crunchy snacks with an 80% lower fat percentage compared to traditional fried crisps on the market.

U.S. Healthy Snacks Market

size, by product, 2020 – 2030, (USD Billion)

Why Beanny Chips?

Recent research shows that the healthy food market is growing at a fast pace and it's expected to become much larger within few years. We use just natural and light ingredients to prove that healthy food can also be nutrient and most of all tasty!

Our chips have less than 7% fat, can contain up to 17% proteins, are Organic, Gluten-free, Lactose-free and Vegan.

Organic

Gluten Free

High in Proteins

High in Fiber

Vegan

BEANNY CHIPS

Our crisps are made with brown lentils, potatoes, sunflower oil, and sea salt. Just natural and healthy ingredients.

Sustainability

Since its foundation, UOP has been oriented towards the well-being of people and environment and in 2021 became a benefit company, aiming to balance its profit-making purposes and working with the mission of having a positive impact on the society.

We share our profits with our employees because we believe in the importance of working as a group that shares the fruits of its work.

Our Flavors

We created the following flavors and recipes to offer what we think are the best solutions to who is looking for a satisfying and tasty snack:

- Tomato and Herbs
- Lemon and Pepper
- Classic (with Italian Sea Salt)
- Fibre
- Protein

Private Label

We sell in Europe and several other countries in private label using custom and unique recipes.

We can help you develop your own recipes, flavors and packaging according to your preferences and market trends.

These are some of the popular flavors we have at disposal:

Curry

Garlic

Aromatical Herbs

More can be developed following your instructions.
