Cantine dal 1933®

Cantine Sgarzi Luigi are fourth generation winemakers who still maintain the passion and drive for wine that characterised their founder Luigi Sgarzi.

The company has been handed down from father to son, and is now owned by Luigi's dear grandson, Stefano.

Our great grandfather 'nonno Luigi' used to say that our winemaking profession requires a lot of hard work, dedication and technique and that, in return, we would receive great satisfaction and joy from the quality fruit of the vine that would enable us to produce wonderful wines.

It was in 1933 that Luigi founded his winery in the countryside of the small village of Castel San Pietro Terme, which is in the outskirts of the beautiful city of Bologna, and cultivated his first vines.

Cantine Sgarzi Luigi è giunta alla quarta generazione di viticoltori, conservando la stessa passione per la vite del suo fondatore Sgarzi Luigi.

L'azienda, insieme a tecnica e dedizione per questo mestiere, è stata tramandata da padre in figlio, e ad oggi sono più di trent'anni che la guida è in mano al caro nipote di Luigi, Stefano.

Nel lontano 1933 Luigi coltivava la vite e produceva i suoi vini nella sua "piccola cantina" a Castel San Pietro Terme.

Tutto è iniziato in questa cittadina collinare a pochi passi da Bologna, rinomata per le sue eccellenze enogastronomiche.

Tradition, Quality and Innovation

Today, the original building of that quaint little winery and homestead still remains, but it is now surrounded by 140 hectares of vineyards and the environmentally-friendly site of our beautiful state-of-the-art winery that includes offices, a laboratory, a production and bottling facility, storage areas, showroom and underground cellar for the ageing of our red wines.

Oggi, esattamente intorno alla stessa "piccola cantina", si sono sviluppate nel corso degli anni le moderne strutture produttive progettate nel pieno rispetto dell'ambiente circostante e dotate d' impianti di produzione energetica rinnovabile.

Rappresentando un'avanguardia in campo di green building, la sede centrale di Cantine Sgarzi Luigi accoglie: uffici, laboratorio, unità produttiva e di stoccaggio, showroom aziendale ed infine bottaia sotterranea per l'affinamento dei rossi.

Selezione di Famiglia

GOOD ATTITUDES TO ENJOY LIFE, FAMILY AND WINE

There are some basic tenets of life that have lasted the test of time. In some shape or form, these principles appear in all cultures, religions and civilizations. Here is my simple list: be loving, be consistent, be a good example, be authentic, be present, be positive, be patient, be simple, be persistent and be believing. I have tried to instil my principles in my family through the dedication and passion that I have for my job and my land, in order to produce the best grapes possible, year after year. It is very gratifying for me to use the 'best grapes' that I have personally chosen for my range of precious wines. Now my focus is to do everything I can to present my selection to the world.

"Ci sono alcuni solidi principi che ci tramandiamo attraverso i secoli. In qualche forma o misura, questi sono comuni a tutte le culture, religioni e civiltà. Questa è la mia semplice lista: sii amorevole, sii coerente, sii un esempio, sii autentico, sii positivo, sii paziente, sii semplice, sii perseverante e sii credente. Ho cercato di infondere questi valori alla mia famiglia, attraverso la passione per il mio lavoro e la mia terra, e sono stato gratificato dalle migliori uve che oggi conservo nella mia preziosa selezione. Tutto ciò che faccio ora è di aprire la mia selezione al mondo."

I grandi vini riflettono il suolo, il clima e anche il carattere delle persone che trasformano l'uva in vino.

Francesco Cresci Scritti fu un grande enologo, appassionato di vini di qualità. I nostri enologi condividono con Lui la stessa passione per la qualità e l'obiettivo di produrre ogni anno vini eccezionali da assaporare insieme alla famiglia e gli amici.

ESSENTIA

SENZA SOLFITI AGGIUNTI

Wine is a natural product, and its quality depends especially on terroirs and weather conditions of its harvest.

When grapes are perfect, then this is the right time for making wines without sulphites.

Essentially, inside there are only the sulphites which are produced naturally during the alcoholic fermentation. "Essentia" Sangiovese IGT Rubicone symbolizes our soul, "Romagna" area. It is obtained from Sangiovese grapes, grown with love and attention in the viticultural site of Forlì-Predappio. We recommend it for who is looking to something typical, fresh but with a full body, smooth and rounded finish.

"Essentia" is the choice for who has intolerances or allergies to sulphites, to have a good glass of wine.

"Essentia" is the high expression of our winemaking knowledge, bottled, to give you a pure pleasure of joy and conviviality.

Il vino è un prodotto naturale e la sua qualità dipende soprattutto dalle caratteristiche climatiche che hanno caratterizzato la sua vendemmia.

Quando ci troviamo di fronte ad uve perfette, è in quel momento che il vino può essere prodotto senza aggiungere solfiti, al suo interno, essenzialmente, solo quelli minimi che si sviluppano naturalmente durante la fermentazione alcolica. "Essentia" Sangiovese IGT Rubicone, è un vino che rappresenta la nostra anima, la Romagna, prodotto da uve coltivate con cura ed attenzione nella zona di Forlì-Predappio. Un vino per chi cerca tipicità, freschezza ma anche un corpo pieno e un finale morbido e avvolgente. "Essentia" è la risposta per chi ha intolleranze o allergie ai solfiti, ma non vuole negarsi un buon bicchiere di vino. "Essentia" è l'alta espressione delle nostre capacità enologiche, messe in bottiglia per regalarvi un momento di piacere e convivialità.

Sangiovese IGT Rubicone
senza solfiti aggiunti

The grapes come from Forlì Predappio area. The fruit undergoes a thermovinification process, it is a modern enological treatment that, by heating the crushed grapes, enables a huge improvement in the extraction of their colour.

Thanks to this new generation system this wine is produced without the use of any addition of sulphites. Ruby red colour, fresh and pleasantly fruity taste with a dry and slightly bitter aftertaste due the young tannins.
